

FLESH TONE REFERENCE TEST CHART

TRANSPARENCY

The flesh tone test chart is designed for evaluating the flesh tone rendition of electronic cameras.

The picture areas marked with circles have the following color coordinates in the CIE-L*a*b*-system:

	L*	a*	b*
woman left	77,5	24,5	31,9
woman middle	78,5	17,5	20,3
woman right	79,2	19,6	22,0

Utilization

The test transparency is designed for matching several color cameras to an approximately uniform color rendition of human flesh tones.
