

Overview

Product name	TE182 A / TE182 D
Principle	Neutral gray test chart with 18 % remission/transmission

Features

Uniform gray field

Type/s of pattern	uniform, gray pattern chart
Remission	<p>18%</p> <p>TE182 A</p> <p>reflectance [%]</p> <p>wavelength [nm]</p>

General description hardware

Type	reflective / transmissive
Aspect ratio	4:3 (variable cutouts within the chart can be used for other aspect ratios)

Chart size [W x H x D]		W [mm]	H [mm]	D [mm]
	A1066	1245	835	3.2
	A540	600	500	3.2
	A460	600	500	3.2
	A444	600	500	3.2
	A360	500	400	3.2
	A280	365	305	3.2
	K360*	390	271	2.1
	D280	360	280	4.6
	D240	320	290	4.6
D240S	360	280	4.6	
Picture size		4:3		
		W [mm]	H [mm]	
	A1066	1245	835	
	A540	540	405	
	A460	460	345	
	A444	444.4	250	
	A360	360	270	
	A280	280	210	
	K360*	360	202.5	
	D280	280	210	
D240	240	180		
D240S	240	180		
Material	photographic film (D charts) specific semi-matt paper (A charts)			
Mounting	aluminum composite panel 'Dibond' (A1066) aluminum (A460, A444, A360, A280) Polystyrene (K360) embedded between glass plates (D charts)			
Edge protection	fabric tape (except K360)			
Service life	3 years			
Scope of delivery	test chart, case for storing the chart safely (A charts, except size A1066), stable cardboard envelope (D charts)			

Miscellaneous

Evaluation / Assessment	supported by iQ-Analyzer (Shading Module)
